LUMÉ

SALON & BEAUTY

Reimagining the Digital Salon Experience

A conversion-focused website designed around discovery, trust and effortless booking.

A UI/UX Case Study by R Santosh Reddy

CASE STUDY · OVERVIEW

Project Overview

LUMÉ is a fictional modern salon created to explore how a service-based business can transform its website from a simple digital brochure into a conversion-focused customer experience.

MY CONTRIBUTION

- Research
- UX Strategy
- Information Architecture
- User Flows
- Wireframing
- UI Design
- Prototyping

THE CHALLENGE

How might we help customers choose the right salon service and book with confidence?

01

Information Overload

Customers may struggle to quickly understand available services.

02

Lack of Confidence

Unclear pricing, stylist expertise and social proof can make choosing a salon difficult.

03

Booking Friction

Customers may need to call or message the salon to complete a simple booking.

DISCOVER · RESEARCH

Research

SECONDARY RESEARCH · COMPETITOR ANALYSIS · UX PATTERN ANALYSIS

COMPETITOR 1

OBSERVATION

Service pricing and duration were not clearly communicated across competitor websites, creating uncertainty during service selection.

UX IMPLICATION

Designed a structured Services section that clearly displays service name, pricing, and duration, improving transparency and helping users make confident booking decisions.

COMPETITOR 2

OBSERVATION

The competitor's booking page combines a callback form with a calendar, but it does not provide a clear end-to-end booking process. Users cannot directly select their service, preferred stylist, and specific time slot, making the appointment process less transparent and potentially requiring additional communication.

UX IMPLICATION

I designed a structured, step-by-step booking flow where users can select their gender, service, stylist, date, and available time slot, review their appointment details, and confirm the booking digitally.

SYNTHESIS · INSIGHTS

User Insights

TRANSPARENCY

Users want to understand service pricing before committing.

TRUST

Reviews, previous work and stylist expertise influence salon selection.

CONVENIENCE

Users want to book without unnecessary calls or messages.

Design opportunity: Reduce uncertainty before booking while keeping the booking path short.

DEFINE · PERSONAS

User Personas

ANANYA RAO

26 · Software Engineer · Hyderabad

“I want to find a salon I can trust before I book.”

GOALS

- Find a reliable salon
- Compare services and prices
- Check reviews
- Understand stylist expertise

PAIN POINTS

- Hidden pricing
- Unclear stylist expertise
- Difficult booking

RAHUL MEHTA

31 · Marketing Manager · Hyderabad

“I know what I want. I just need to book it quickly.”

GOALS

- Quickly find service
- Check availability
- Choose preferred stylist
- Book within minutes

PAIN POINTS

- Repeated phone calls
- Waiting for responses
- Unclear service duration
- Difficult rebooking

MAP · JOURNEY

User Journey Map

	1. Choose Gender	2. Select Service	3. Select Stylist	4. Select Date	5. Select Time	6. Confirm Booking	7. Booking Confirmed
USER GOAL	Find relevant services	Choose the right service	Find a suitable stylist	Choose a convenient date	Find an available slot	Verify details	Have confirmation
USER ACTION	Selects Men's/Women's	Reviews price & duration and selects service	Compares expertise, rating & experience	Selects preferred date	Selects available time	Reviews appointment details	Views booking confirmation
USER THOUGHT	<i>"I want to see services relevant to me."</i>	<i>"What service do I need and how much does it cost?"</i>	<i>"Which stylist is best for this service?"</i>	<i>"When can I visit?"</i>	<i>"Is my preferred time available?"</i>	<i>"Let me make sure everything is correct."</i>	<i>"My appointment is confirmed."</i>
PAIN POINT	Too many irrelevant options can create confusion	Unclear pricing/duration can make comparison difficult	Limited stylist information can reduce confidence	Unclear availability makes planning difficult	Manual calls/messages to check availability	Mistakes in booking details	Lack of clear confirmation can create uncertainty
LUMÉ UX SOLUTION	Gender-based service categorization	Clear service name, price & duration	Stylist cards with rating, experience & expertise	Simple date-selection calendar	Clear available/unavailable time slots	Dedicated booking summary	Confirmation screen with booking details + QR code
EMOTION	😊 Curious	😬 Evaluating	😊 Confident	😊 Planning	😊 Satisfied	😊 Reassured	😊 Excited

Every stage pairs a real user emotion with a specific interface decision — turning uncertainty into confidence, one step at a time.

Ananya ★★★★★ 4.5

"The entire experience at LUMÉ was amazing. My stylist understood exactly what I wanted and the final result was even better than I expected. I'll definitely be coming back!"

Rahul ★★★★★ 4.8

"I loved how easy it was to choose my service and stylist. The team was professional, the salon felt welcoming, and my haircut turned out great. Highly recommended!"

Sneha ★★★★★ 4.1

"LUMÉ has such a warm and relaxing atmosphere. I got a facial and the whole experience was smooth and comfortable. The staff were friendly and the results were fantastic."

Aravind ★★★★★ 4.4

"I've been looking for a salon where I can consistently get a good haircut, and LUMÉ has definitely become my go-to. The booking process is simple and the service is always professional."

REFLECT · OUTCOMES

Design Outcomes

01

Clearer Discovery

Users can navigate from gender → service details → booking

02

Stronger Trust

Stylist profiles, ratings, gallery and reviews provide multiple trust signals.

03

Reduced Friction

The booking path collects only the information necessary to complete an appointment.

04

Scalable Ecosystem

The website establishes the foundation for the future booking app and CRM experience.

LEARNINGS

*Designing for conversion isn't about adding more CTAs.
It's about giving users enough confidence to take the next step.*

01

UX before aesthetics

02

Progressive disclosure

03

**Consistency across the
ecosystem**

LUMÉ

Thank You

Designed with intention. Built around people.
